## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-16 and 22, are drawn to a recombinant poxvirus, a method of using the recombinant poxvirus and a method of producing the recombinant poxvirus.

Group II, claim(s) 17, is drawn to a method of introducing coding sequences into target cells.

Group III, claim(s) 18, is drawn to a method for producing a peptide, protein and/or virus.

Group IV, claim(s) 19-20, are drawn to a method for affecting a living animal body.

Group V, claim(s) 21, is drawn to a cell containing the recombinant poxvirus.

The inventions listed above as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The special technical feature of Group I is the recombinant poxvirus. Groups II-IV are drawn to methods, which can be used with different products not sharing the special technical

feature. Group V is drawn to a cell containing the recombinant poxvirus however the cell can contain a different poxvirus not sharing the special technical feature.

Accordingly, Groups I-V are not so linked by the same special technical feature as to form a single general inventive concept.

Applicant is advised that the reply to this requirement to be complete must include an election of an invention to be examined even though the requirement may be traversed (37 CFR 1.143) and identification of the claims encompassing the elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sharon Hurt whose telephone number is 571-272-3334. The examiner can normally be reached on M-F 8:00 - 4:30 PM.
